15TH AOC - 11TH JUNE 2024

AOC AGENDA OVERVIEW - DAY 1

Room: Pegasus A	
09:00 - 09:15	Welcome & Introduction AOC
09:15 - 10:00	Woven by Toyota: Keynote Speech. Speaker: Mr. JF Bastien
10:00 - 10:20	AUTOSAR Classic Platform
10:20 - 10:40	AUTOSAR Adaptive Platform
10:40 - 11:00	AUTOSAR Roadmap and Strategy
11:00 - 11:10	3rd Parties Presentation Pitches
11:10 - 11:30	3rd Parties Presentation Pitches Technical Session Pitches
11:30 - 13:00	Lunch: Sunrise and Sunset Terrace
13:00 - 15:20	Lunch: Sunrise and Sunset Terrace 3rd Parties Presentations Room: Pegasus A Technical Sessions A Room: Serius A Technical Sessions B Room: Serius B
15:20 - 15:50	Coffee Break
15:50 - 17:30	3rd Parties Presentations Room: Pegasus A Technical Sessions A Room: Serius A Technical Sessions B Room: Serius B
17:30 - 18:00	3rd Party Panel Discussion: Pegasus A

SPONSORED BY:

19:00 - 22:00

Networking Event: Sunrise and Sunset Terrace

Exhibitions in Foyer and Pegasus B

15TH AOC - 11TH JUNE 2024

3RD PARTIES AGENDA

AUTOSAR in Regions

13:00 - 13:20 Japan JASPAR: TBC. Speaker: TBC 13:20 - 13:40 AUTOSAR: TBC. Speaker: Martin Lunt 13:40 - 14:00 China - NTSIB: TBC. Speaker: Ms. Wu Hanbing 14:00 - 14:20 India: TBC. Speaker: TBC 14:20 - 14:40 North America: TBC. Speaker: Steve Crumb 14:40 - 15:00 EU FEDERATE Program: TBC. Speaker: Peter Priller 15:00 - 15:20 Sidéral Fuelling Collaboration through diversity and inclusion in the innovation process. Speaker: Lorena García Girón 15:20 - 15:50 Coffee Break

Evolution of the SDV Ecosystem

15:50 - 16:10	NDS: Use Case: Navigating the Future: Integrating HD Maps and Services with AUTOSAR in Software-Defined Vehicles. Speaker: Fabian Klebert
16:10 - 16:30	COVESA: TBC. Speaker: Mr. Hisao Murakata
16:30 - 16:50	Eclipse SDV: TBC. Speaker: Michael Plagge

16:50 - 17:10 **SOAFEE:** TBC. **Speaker:** Robert Day

17:10 - 17:30 AUTOSAR: TBC. Speaker: Michael Niklas-Horet

17:30 - 17:50 **3rd Party Panel Discussion**

15TH AOC - 11TH JUNE 2024

TECHNICAL SESSIONS A Room: Serius A

13:05 - 13:50	Vector JP: AUTOSAR Fundamentals, Introduction Session in Japanese Speaker: Nakamura Nobuhiko & Shigeta Yoshihiro
13:50 - 14:35	AUTOSAR: AUTOSAR Methodology and Work Mode in Japanese. Speaker: Mr. Tsuyoshi Sakurai (Japan Hub)
14:35 - 15:20	Mercedes-Benz AG: AUTOSAR Signal/Service Translation Introduction - AUTOSAR Methodology. Speaker: Robert Sakretz
15:20 - 15:50	Coffee Break
15:50 - 16:35	TASKING Germany GmbH: Virtual ECUs: Redefining Scalability and Efficiency in Embedded Software Development, Debugging and Testing. Speaker: Matthias Scheid
16:35 - 17:20	BTC Japan: Model-Based Development Using AUTOSAR: Challenges and Best Practices. Speaker: Leif Driebold
17:20 - 18:05	Intellias: Safe Hardware Accelerators Utilization in AUTOSAR AP. Speaker: Andriy Byzhynar and Andrii Shcherba

TECHNICAL SESSIONS B

Room: Serius B

13:05 - 13:50	Tietoevry: Open-source Artifacts in Cloud-Vehicle Integration. Speaker: Paweł Jarosz
13:50 - 14:35	BLUEBINARIES: Firmware Over the Air Software Update Using AUTOSAR in Software Defined Vehicles(SDVs). Speaker: Rakesh Kumar
14:35 - 15:20	LG Cybersecutrity: How to Prevent Security Attacks in a Timely Manner from a Platform Perspective. Speaker: Sangyup Lee & Changhoon Park
15:20 - 15:50	Coffee Break
15:50 - 17:20	WG-AP-DI, WG-AP-CCT & WG-UCM: Adaptive Platform Demonstrator (APD) - General introduction and flagship demo use cases. Speaker: Florian Frank & Aymeric Rateau
17:20 - 18:05	Aptiv Services GmbH: Writing AUTOSAR Adaptive Stacks in Rust or JavaScript. Speaker: Christof Petig

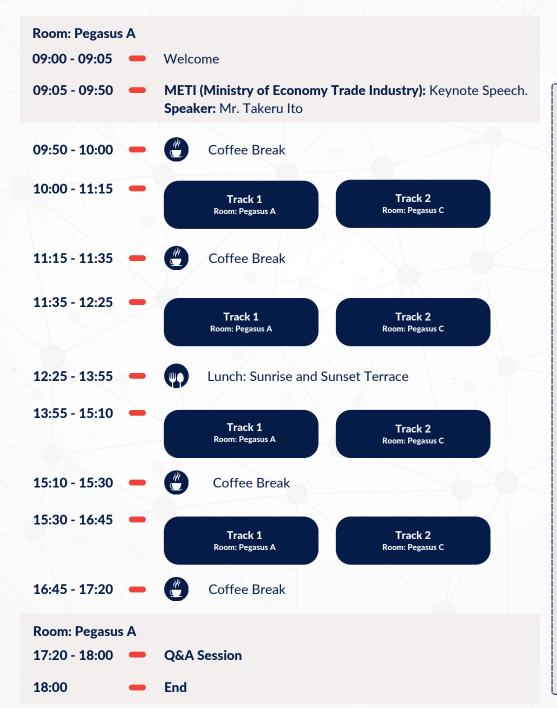

15TH AOC - 12TH JUNE 2024

AOC AGENDA OVERVIEW - DAY 2

Exhibitions in Foyer and Pegasus

15TH AOC - 12TH JUNE 2024

TRACK 1 - PEGASUS A

10:00 - 10:25	eSOL: The Four Principles of Software Defined Vehicle . Speaker: Masaki Gondo
10:25 - 10:50	LG SDV: What are Opportunities or Challenges for SDV in the Context of AUTOSAR. Speaker: Yeongkyu Lim & Seongwook Min
10:50 - 11:15	Vector: Improving the Understanding of the AUTOSAR Technology Portfolio: A Software Supplier Perspective. Speaker: Eduard Metzker
11:15 - 11:35	Coffee Break
11:35 - 12:00	iSOFT: Practical Applications of AUTOSAR in China & Exploring Future Trends in Open-Source Automotive Software Speaker: Alex Zhang
12:00 - 12:25	Synopsys: Exploring the Future of AUTOSAR Focus Areas and Collaboration Opportunities Considering Software and Cybersecurity. Speaker: Dennis Kengo Oka
12:25 - 13:55	Lunch: Sunrise and Sunset Terrace
13:55 - 14:20	KPIT India: Converging AUTOSAR Adaptive and AAOS, in Coexistence. Speaker: Meenal Awachat
14:20 - 14:45	PopcornSAR: AUTOSAR Adaptive Platform with Digital Twin Environment for SDV Speaker: Yunki Choi
14:45 - 15:10	Elektrobit: Safe and Security OTA for SDV. Speaker: Abdelillah Ymlahi Ouazzani
15:10 - 15:30	Coffee Break
15:30 - 15:55	Siemens: Software-defined Vehicles: Safe and Secure Ethernet for Zonal ECUs Speaker: Ahmed Majeed Khan
15:55 - 16:20	RTI: AUTOSAR as the Software-Defined Vehicle Backbone through Interoperability Standards. Speaker: Estepa Emilio Guijarro
16:20 - 16:45	DENSO: Recommendations how AUTOSAR can Best Realize Software-Defined Networking Speaker: Kenichiro Omura
16:45 - 17:00	Coffee Break

15TH AOC - 12TH JUNE 2024

TRACK 2 - PEGASUS C

10:00 - 10:25	MathWorks & Elektrobit: AUTOSAR Application Development for the SDV Era. Speaker: Simon Dürr & Shwetha Bhadravathi Patil
10:2510:50	KPIT Technologies Ltd.: Ease of Software Integration and Interoperability with AUTOSAR in SDV. Speaker: Krishna Murthy Handadi
10:50 - 11:15	TCS by TATA: Containers Based Software Development with AUTOSAR and non-AUTOSAR Systems. Speaker: Aaswad Kulkarni
11:15 - 11:35	Coffee Break
11:35 - 12:00	Vitesco Technologies: AUTOSAR Compliant != Interoperable != Portable Speaker: Ralph Mader & David Nürnberger
12:00 - 12:25	Bosch: Building AUTOSAR Tool Eco-System for the Software Defined Vehicle Speaker: Prabhat Kosuru
12:25 - 13:55	Lunch: Sunrise and Sunset Terrace
13:55 - 14:20	Southwest Research: Securing Vehicle Architectures with Zero Trust Principles Speaker: Maggie Shipman, Nathan Millwater & Cameron Mott
14:20 - 14:45	TASKING: Is Your Security Mechanism Still Secure After Compilation? Speaker: Gerard Vin
14:45 - 15:10	OpenSynergy: Software Clustering vs Embedded Virtualization for Deeply- Embedded Applications. Speaker: Pierre-Antoine Bernard
15:10 - 15:30	Coffee Break
15:30 - 15:55	ARM Ltd.: Consolidating AUTOSAR Classic Platform ECUs for Zonal Architecture. Speaker: Bernhard Rill
15:55 - 16:20	GLIWA: Why AUTOSAR Fails so Often. Speaker: Peter Gliwa
16:20 - 16:45	Verlot Engineering: AUTOSAR's Role in Software Defined Vehicle Ecosystem. Speaker: Ajinkya Kadupatil & Gaurav Kedari
16:45 - 17:00	Coffee Break
