RfCs affecting this spec item between releases 4.3.0 and 4.3.1:

- RfC #73567: [diverse] references to HIS

Problem description:

The HIS website is no more available.

We should check what is the impact on the AUTOSAR documents.

There is already RfC 64155 which will make us rid of some references, but I assume some will remain:

- * SHE
- * list of vendor IDs
- * IO driver API
- * bootloader
- ...

I tried to list the document where the HIS reference will survive RfC 64155 to avoid duplicate ITs.

Agreed solution:

Generic approach for the solutions (to be refined per document by documents owners (see below)

- * Check the need for an external reference
- * Try to find a replacement
- * Backup: ask PL solution
